**27th Semi-Annual Show and Sale**  
**CAMILLA, GEORGIA**  
**Friday, October 27, 1961**

*Shorthorns - Polled Shorthorns*

*From Six Southeastern States*

Typical of the outstanding bulls being produced in the Southeast is this powerful Upson Farms herd sire of George H. Miller, Thomaston, Ga. The bull is Upson Ocean Wave.

Always the South's largest and Strongest  
Shorthorn - Polled Shorthorn Sale of the Year

## **121 Head**

**Sell as 104 Lots**

## **40 Bulls**

25 are 20 months or over.

8 from 18-20 months of age. 7 from 15-18 months.

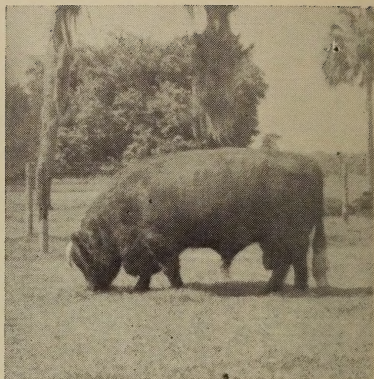

## **64 Female Lots**

37 beautifully bred foundation-type females in the show and sale. 27 female lots in the "pasture flesh" sale.

**ON THE FRONT COVER . . .** scene in the herd of H. L. & P. N. Smith, Winter Haven, Florida, consignor of 14 lots in this sale.

# **Why SHORTHORN BULLS For Cross-breeding?**

**Edellyn Emperor, Smith Ranch herd sire. Typical, powerful Shorthorn bull.**

Cross-breeding tests at Louisiana State University show that Shorthorn crosses with both Angus and Herefords were superior to the Angus-Hereford cross in weaning weight, slaughter calf grade, rate of gain, weight per day of age and carcass grade.

The Santa Gertrudis breed . . . most popular of all Brahma type hybrids resulted from the use of  $\frac{5}{8}$  Shorthorn,  $\frac{3}{8}$  Brahma blood.

## **More Valuable Calf Crops . . .**

A summary of 30 feeder calf sales in Virginia in 1960, involving 34,517 head of all breeds, revealed that Shorthorns, which had their own sale at Winchester, outweighed, outsold and outgrossed their competitors. The Shorthorn average weight was 495 as compared to 456 for all calves. Shorthorns sold for a \$25.37 per cwt. average as compared to \$25.19 overall average for the state. They grossed an average of \$125.51 a head as against \$114.84 for other breeds . . . a Shorthorn advantage of \$10.67 on every calf.

## **Superior Gaining Ability . . .**

Shorthorns scored the highest average gains at the big Front Royal, Virginia, inter-breed performance tests for eight straight years. In the largest testing program in the nation, the Kentucky Performance Test, Shorthorns outscored other breeds in every category.

## **Bred in the Southeast**

### **THE 1960 INTERNATIONAL GRAND CHAMPION FEMALE BRAWITH BETSY 2nd**

**This is how she looked in pasture at Boll Weevil Plantation,  
Waynesboro, Ga., after having calved this spring.**

The evidence is conclusive. Spurred by an expanding market for Shorthorn and Polled Shorthorn bulls, Southeastern breeders have been more aggressive in improving their herds than any other region in the past decade.

Today, breeders throughout the land are looking at the Southeast as a top source of the finest seed stock.

Many of the finest herd sires of the breed are in service in the Southeast today . . . and the blood of these sires is offered in this sale.

## General Sale Information

**LOCATION**—The sale will be held at the Mitchell County Livestock Company, Camilla, Georgia. Camilla is 27 miles south of Albany, 45 miles north of the Florida line, 52 miles east of the Alabama line.

**TIME**—Sale, Friday, October 27, 1961. On Thursday, October 26, elimination of bottom 15% of bulls at 3 p.m. Judging of bull and female classes, Friday, 8:30 a.m.

**BANQUET**—A buffet dinner for all will be held at 7 p.m., Thursday, October 26, East End Cafe, followed by a short program of interest to all cattlemen. The annual meeting of the Southeastern Regional Shorthorn Breeders' Assn. will follow the program.

**TERMS**—The terms of the sale are cash unless other arrangements are made in advance with the consignor from whom you purchase. Settlements are to be made with the clerk of the sale immediately at the conclusion of the auction. All stock will be at buyer's risk as soon as bid off.

**HEALTH**—All cattle have been tested for T.B. and Bang's within 30 days of the date of this sale, with exception of those officially calfhood vaccinated for Bangs or from Accredited herds. Interstate health papers, according to the laws of Georgia, will be provided to out-of-state buyers. All purchasers must be aware of any variations from the health laws of Georgia and their own state and lack of knowledge will not invalidate a sale. Many of the cattle come from herds Federally Accredited for T.B. and Bang's.

**GUARANTEE**—The cattle are being sold under the standard guarantee of the American Shorthorn Breeders' Association.

**SALE HEADQUARTERS**—The Azalea Motor Court, one mile south of Camilla. We have reserved a large block of their rooms, but to assure yourself of having one we urge you to write them immediately and mention that you are coming to attend this sale.

**LIABILITY**—Although every precaution will be exercised to protect the safety and comfort of the guests of this show and sale, neither this association, any member, its auctioneers, clerks, the sale barn, nor the sale manager can assume any liability. Every person attending does so at his own risk. The sale manager was retained by the Southeastern Shorthorn Breeders' Assn. for the specific purpose of compiling the sale offering, handling the advertising and publicity, preparing the catalog and disbursing the receipts, and has no connection with the handling of the cattle or the condition of the premises, and cannot be responsible for errors in the health charts or fulfillment of guarantees.

**TRANSPORTATION**—Good truckers at reasonable rates are available locally. Should you wish to leave your cattle for a reasonable period after the sale, in order to have a truck sent from your home, arrangements can be made to care for them.

**AUCTIONEERS**—Don Smock, Whiteland, Indiana, Ray Brockington, Had-dock, Georgia, and Scott Wilson, Macon, Ga.

**SALE MANAGER**—Don Longley, 16 So. Locust St., Aurora, Illinois.

**MAIL BIDS**—May be sent to any of the following representatives. Last minute messages will reach them by calling Mitchell County Livestock Sale Barn.

### Representatives

**R. G. Heine**, American Shorthorn Breeders' Assn., 3860 S.W. Archer Road, Gainesville, Florida.

# The Largest Selection To Be Offered In The Southeast

**25 of these bulls are 20 months or older.**

**8 more are from 18 to 20 months.**

One of the chief functions of the Southeastern sale is to supply strong, rugged, weight for age bulls for the commercial cattleman. Because of the demand for Shorthorn and Polled Shorthorn bulls for cross-breeding, it is difficult to find large groups from which to select. This sale is your BEST opportunity.

Scene at the 1961 summer field day of the Southeastern Regional Shorthorn Breeders' Association held at Boll Weevil Plantation, Albany, Georgia.

This association is composed of leading breeders of Shorthorns and Polled Shorthorns in six Southeastern states. Their offerings are larger and stronger because of the large membership and wide area from which to draw entries.

The Southeastern association has an aggressive year around promotional program . . . helping to expand the breed. You are cordially invited to join this organization . . . you will be as welcome as a seller, as you are as a buyer.

Be sure to attend our annual banquet and meeting to be held the evening before the sale. Meet the many fine people who are promoting the world's most useful breed of cattle.

## The "Off Grass" Female Sale . . .

W P Silver Royalist x. His get and service are offered in the strong Irwin & Irwin and Rebel Farms off grass consignments.

The following females in this sale make up the "off grass" female section. Since this sale feature was initiated in 1956, over 400 female lots have been sold in this division of the sale.

Practical cattlemen will be the first to recognize that there are many good quality, well bred registered females that are not brought up to show condition. In some cases the owners do not desire to fit cattle . . . or possibly can give close attention to only a few a year. In other cases a breeder may wish to sell some good cows, keeping their daughters in the herd. In any event the "off grass" division provides a fine opportunity for the cowman who can tell a good one in its working clothes.

The off grass sale begins immediately following the sale of the last female in the show and sale.

### BREED OF OPPORTUNITY

Throughout the beef producing world, cattlemen everywhere are learning the advantages of cross-breeding . . . the use of bulls of one breed on cows of another. The natural genetic result is a calf of hybrid vigor and extra size.

Cross breeding can be successful, however, only if big, rugged, easy-fleshing bulls are used . . . that is why the Shorthorn is considered the **KEY INGREDIENT** in the most successful cross-breeding operations.

This trend, naturally, is increasing the demand for Shorthorn and Polled Shorthorn bulls . . . reflecting itself throughout the registered Shorthorn business. That is why today Shorthorns are the breed of opportunity and growth. Attend this sale . . . see for yourself how many ranchers will be buying Shorthorn bulls to improve their cow herds of other breeds. An extra-bonus from the use of a Shorthorn bull is that the replacement heifers sired by them will give more milk . . . getting that calf off to a good start and bringing it in at a heavier weaning weight.

Join the swing to the original improver of all beef cattle . . . the **SHORTHORN**.

# Standard Guarantee

endorsed by the

## AMERICAN SHORTHORN ASSOCIATION

1. Proper care must be given by purchaser to protect breeding qualities and health of guaranteed animals.
2. All bulls are guaranteed breeders, provided they are not allowed to serve when under 14 months of age, or not allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder, notice shall be given to the seller within six months of date of purchase or by the time the bull is 20 months of age, if purchased under 14 months of age.
3. With the exception of heifers sold under 14 months of age, all females are guaranteed breeders. Heifers under two years of age shall not be served by a heavy or old bull. Cows or heifers sold as bred, or safe in calf, not proving to be in calf must be reported to the seller within three months after date of sale. Females over 14 months of age sold open, not settling within six months after date of sale, shall be promptly reported to the seller.
4. When an animal fails to comply with the above guarantee the seller has the option of substituting an animal of equal value to the satisfaction of the purchaser, or of having the animal returned for a trial for a period not to exceed six months. The expense of freight in such case is to be paid by the seller. If the animal is then proved to be a breeder beyond doubt it shall be returned to the purchaser at his expense. In case of dispute the return of the full purchase price, without interest, to the buyer will be considered full settlement and satisfaction of all claims. No charge for feed or maintenance shall be made by either buyer or seller. Salvage shall go to the seller. It shall be understood that the same guarantee given for the first animal shall likewise apply to any animal later substituted.
5. Certificate of registry and transfers will be furnished with each animal sold. A signed pedigree application for calves at side or unborn calves should be furnished with bred females, showing names and record numbers of sire and dam, as well as service date.
6. Shipment will be made as soon as possible after the close of the sale, but at purchaser's risk of loss or injury after animal is bid off.

### BUYERS - - - PLEASE NOTE

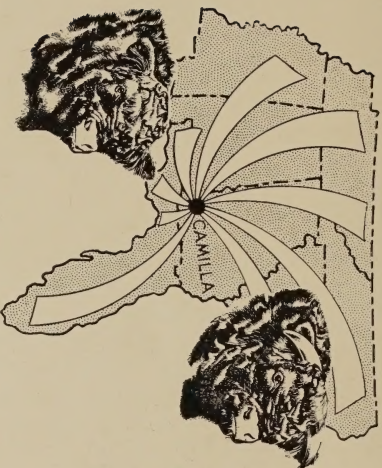

The above GUARANTEE applies to all animals selling in this sale. NOTIFICATION by buyer must be made to the SELLER within the prescribed time limits. These are:  
Females sold bred . . . **Three months** from date of sale.  
All Others . . . **Six months**.
